Winter Session Sep-Dec \$152 or \$38 per month

Focus on the Fundamentals of dance in a creative environment with this combination class that will introduce your child to both Classical Ballet and Jazz Dance. This class will give your child a great start in dance by introducing them to the correct technique and fundamentals of Ballet and Jazz in a fun, non-competitive environment.

Students will enjoy different activities to help with their flexibility and strength. They will be encouraged to explore dance and use their imaginations, they will learn to not just follow the teacher but to also use their own improvisational skills. Each class will learn one Ballet and one Jazz styled dance for each performance.

Performances will be in May and December.
